Leon Basin

GTM & Sales Leader | Helping Companies Win the US Market
San Francisco Bay Area

Summary

7+ years in SaaS GTM. \$35M in pipeline created across cybersecurity, staffing tech, and enterprise software.

160% YoY pipeline growth. SDR ramp from 90 days to 5. Six-figure contracts closed with Fortune 500 CISOs.

I'm at my best when a company has real demand but the execution model hasn't caught up. I've done this for companies entering new markets with no playbook. That's where I'm most useful.

Open to Senior Manager and Director roles in GTM, Sales, or Business Development. Strongest fit: companies entering the US market, scaling through channel, or operating in cybersecurity.

Experience

Basin GTM Consulting
GTM Systems & Automation Consultant
2025 - Present (1 year)
Mountain View, CA

Fractional GTM operator for early-stage companies that need execution infrastructure, not slide decks.

- Built automated identity resolution and lead-to-account matching logic that reduced manual routing overhead across partner ecosystems.
- Deployed retention alert infrastructure to surface churn risk before it hit revenue.

Fudo Security
Senior Manager, GTM Strategy & Technical Partnerships
2024 - 2026 (2 years)
Union City, California, United States

Owned US market entry for a European identity security company with no existing North American footprint.

- Rebuilt a dormant channel program from scratch, scaling Americas pipeline 160% YoY through automated partner co-sell motions and signal-based prospecting.
- Cut SDR ramp from 90 days to 5 by building a just-in-time technical certification system, eliminating dependency on manual onboarding.
- Automated CRM enrichment and lead routing via custom Python workflows, generating \$424K in annual operational savings.
- Led technical strategy for Fortune 500 proof-of-concepts, closing multiple six-figure contracts by bridging CISOs and engineering teams.

Braintrust

GTM Consultant

2024 - 2024 (less than a year)

San Francisco, CA

Project-based engagement to build automated outbound infrastructure for the world's largest decentralized talent network.

- Engineered automated outbound sequences and ICP scoring models using multi-source enrichment data to accelerate platform adoption across Fortune 1000 accounts.
- Developed account-specific diagnostic tools to identify high-intent technical leads, streamlining transition from pilot to enterprise adoption.

Sense

Group Manager, Global Business Development (GTM Systems)

2021 - 2023 (2 years)

San Francisco, California, United States

Led the transition from manual outbound to a signal-based GTM system at a Series B staffing tech company.

- Built and managed a BDR engine that generated \$10M in qualified pipeline by replacing volume-based outreach with intent-signal routing.
- Designed a social selling playbook integrating LinkedIn triggers with Outreach.io, lifting response rates 125%.
- Deployed automated churn detection workflows, reducing customer attrition by 12%.

SurveyMonkey

Enterprise Business Development, Strategic Accounts

2019 - 2021 (2 years)

San Mateo, CA

Enterprise hunter targeting Fortune 500 accounts during a period of rapid market expansion.

- Pioneered intent-based prospecting using IPO filings and hiring signals to break into strategic accounts before competitors engaged.
- Partnered with Solution Engineers to map complex data workflows for enterprise clients, shortening sales cycles on high-ACV deals.

Sanho Corporation

Customer Success Manager, Crowdfunding GTM

2015 - 2019 (4 years)

Fremont, CA

Owned post-launch GTM operations for a hardware company running record-breaking crowdfunding campaigns.

- Supported the HyperDrive USB-C Hub launch that raised \$3.1M on Kickstarter/Indiegogo, serving as the bridge between engineering and consumer messaging.
- Converted 20,000+ early adopters into brand evangelists by managing high-volume backer communication during viral traffic spikes.
- Directed technical messaging for commercial assets targeting the Apple/tech ecosystem.
