Leon Basin

GTM Systems Operator | RevOps, Automation, CRM, and Sales
Execution
San Francisco Bay Area

Summary

I build GTM and commercial systems that make growth easier to execute.

My work sits between strategy, execution, and systems. I've led work across RevOps, partner ecosystems, enablement, automation, and technical go-to-market, usually stepping in when growth is real but execution is messy.

Across that work, I've supported revenue portfolios over \$300M and contributed to more than \$35M in pipeline. I help teams remove friction, clarify ownership, and build operating systems that hold up under pressure.

Recent outcomes include scaling Americas pipeline 160% YoY by rebuilding a dormant channel ecosystem, cutting onboarding and ramp from 90 days to 5 days through automated enablement infrastructure, generating \$424K in annual operational savings through workflow redesign, and leading enterprise technical strategy tied to Fortune 500 proof-of-concept initiatives.

I'm at my best when a company has real demand but the execution model hasn't caught up yet, or when growth depends on tighter coordination across people, process, and technology.

If you're building commercial infrastructure, GTM systems, or operational scale, I'm always open to connecting.

Experience

Basin GTM Consulting
GTM Systems & Automation Consultant

November 2025 - Present (6 months)

Mountain View, CA

- Built a production GTM automation library that improved identity resolution and accelerated lead-to-account matching across partner ecosystems.
- Replaced legacy matching workflows with automated identity logic, reducing manual routing and improving pipeline accuracy.
- Launched automated retention alerts that proactively identified churn risk and strengthened partner lifecycle stability.

Fudo Security

Senior Manager, GTM Strategy & Technical Partnerships

February 2024 - November 2025 (1 year 10 months)

Union City, California, United States

Owned the US market entry strategy and technical sales engine for a European leader in Identity Security (PAM), managing the end-to-end technical sales cycle, partner ecosystem build-out, and SDR enablement.

- Scaled Americas pipeline 160% YoY by rebuilding the dormant channel program with automated partner co-sell motions and signal-based prospecting targeting ISO/SOC2 compliance sectors.
- Reduced SDR ramp time from 90 days to 5 days (18x faster) by deploying a custom "Just-in-Time" technical certification system that automated product knowledge verification.
- Programmed custom Python workflows for automated CRM enrichment and lead routing, yielding \$424K in annual operational savings.
- Served as lead technical strategist for complex Fortune 500 proof-of-concepts, bridging the gap between client CISOs and engineering to secure multiple six-figure enterprise contracts.
- Translated complex PAM/Zero Trust architecture into business value for C-level buyers across NA and LATAM.

Braintrust

GTM Consultant

January 2024 - July 2024 (7 months)

San Francisco, CA

Project-based engagement to build automated outbound infrastructure and lead generation systems for the world's largest decentralized talent network.

- Engineered automated outbound sequences and ICP scoring models using multi-source enrichment data to accelerate platform adoption across Fortune 1000 accounts.

- Developed account-specific diagnostic tools to identify high-intent technical leads, streamlining transition from pilot programs to enterprise adoption.

Sense

2 years 4 months

Group Manager, Global Business Development (GTM Systems)

July 2022 - April 2023 (10 months)

San Francisco, California, United States

Orchestrated the transition from 'Manual Outreach' to 'Social Selling at Scale.'

- System Architecture: Designed the 'Social Selling' playbook that integrated LinkedIn triggers with Outreach.io, increasing response rates by 125%.
- Pipeline Engineering: Managed the BDR engine that generated \$10M in pipeline, focusing on signal-based routing rather than volume-based spam.
- Retention Logic: Built automated workflow triggers to detect churn risk, reducing customer attrition by 12%.

Enterprise Team Lead, Account Management

January 2022 - December 2022 (1 year)

San Francisco, California, United States

- Accelerated B2B adoption of enterprise survey solutions, leveraging AI-driven insights.
- Optimized multi-channel sales engagement, increasing enterprise market penetration.

Global Business Development

January 2021 - January 2022 (1 year 1 month)

San Francisco, California, United States

- Transformed the staffing industry by optimizing recruiter productivity and increasing placement success.
- Equipped staffing leaders with an all-inclusive engagement platform to sustain high levels of candidate involvement.
- Advanced staffing firms into people-centric organizations by leveraging state-of-the-art automation technology.

SurveyMonkey

2 years

Enterprise Business Development (Strategic Accounts)

February 2019 - January 2021 (2 years)

San Mateo, CA

Strategic hunter for the Enterprise tier.

- Solution Selling: Partnered with Solution Engineers to map complex feedback data workflows for Fortune 500 clients.
- Signal-Based Outbound: Pioneered early 'intent-based' prospecting methods, leveraging IPO and hiring signals to break into key accounts.

Sales Development

February 2019 - July 2019 (6 months)

San Mateo, CA

Sanho Corporation

Customer Success Manager (Crowdfunding GTM)

February 2015 - February 2019 (4 years 1 month)

Fremont, CA

Orchestrated post-sale operations and launch logistics for record-breaking crowdfunding campaigns (Kickstarter/Indiegogo) including the HyperDrive USB-C Hub (\$3.1M+ Raised).

- Launch Operations: Executed GTM support strategies for flagship hardware launches, serving as the technical bridge between engineering product data and consumer messaging.
- Community Engineering: Managed high-volume backer communication loops, converting 20,000+ early adopters into brand evangelists during viral traffic spikes.
- Multimedia GTM: Directed technical messaging for commercial assets to ensure product capabilities were accurately represented to technical audiences (Apple/Tech ecosystem).

Google

Operations Analyst

August 2014 - January 2015 (6 months)

Mountain View, CA

- Managed large-scale mapping data and operational projects, establishing a career-long foundation for data-first thinking. (Note: Shopping Data Operations, not Wallet).
- Collaborated cross-functionally to enhance user experience & security operations.

NetApp

Physical & Operational Security

March 2013 - August 2014 (1 year 6 months)

Sunnyvale, CA

- Managed a team of 3 employees to ensure proper adherence to dispatch codes and responses to emergencies.
- Oversaw responses to thefts, medical emergencies, and building security threats, compiling incident reports.
- Developed strong leadership and communication skills while working at NetApp in Sunnyvale, CA.

Mosaic Sales Solutions

Field Operations Lead

March 2011 - February 2013 (2 years)

San Francisco Bay Area

- Directed a team of 50 employees across 40 stores, ensuring efficient management of gift cards and prepaid phones
- Spearheaded overnight installations of gift card display units as the responsible manager
- Coordinated peer-level teams to support comprehensive resets and extensive projects in the San Francisco Bay Area
- Optimized visual presentation by systematically stocking, facing, and pricing merchandise

Hewlett Packard Enterprise

HPE Field Manager

July 2010 - December 2011 (1 year 6 months)

Palo Alto, CA

- Managed field GTM execution and enablement across a 20-person territory team.
- GTM Enablement: Engineered product demonstration protocols and training modules, standardizing pitch delivery across 20 associates.
- Market Signal Analysis: Conducted competitive hardware analysis (HP vs. Market) to refine field messaging.

Education

Santa Clara University Leavey School of Business

Executive MBA · (2021 - 2023)

University of Phoenix

Bachelor of Science (BS), Psychology

De Anza College

Associate of Arts (A.A.), Business Administration and General Studies
